

PATENT
Atty Docket: 671-9 (P9961)

AMENDMENTS TO THE SPECIFICATION

Amend the paragraph starting at line 11 of page 9 as follows:

Fig. 3d is a schematic showing an embodiment of the present invention being worn by user 101 with wearable speaker 330 and wearable MIC 320 optimally positioned and supported by lanyard 310. Mobile terminal 102 is supported on the belt of user 101 using a standard mounting holder and an electrical connection 305 is provided. The electrical connection can alternatively be accomplished via wireless short-range technology, such as by Bluetooth™ protocol.
